**REQUEST FOR RELEASE OF FUNDS**

**On or about December 29, 2024 the Sarasota County Resilient SRQ will submit a request to the HUD Community Development Block Grant-Disaster Recovery Program for the release of CDBG-DR funds under the 1988 Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5206 (Stafford Act), as amended to undertake a project known as City of North Port Myakkahatchee Creek Bridge Reconstruction for the purpose of demolishing and reconstructing the Myakkahatchee Creek bridge and removing the pedestrian bridge that runs parallel to the bridge on the northern side. The proposed bridge would be a nine-span flat slab beam (FSB) bridge with cast in place toppings. The bridge would have seven spans of 43'-5.5" and two spans of 43'-6.5" totaling 391'-3.5". The proposed typical section will include a textured raised 19'-6" median with two 11' travel lanes, two 4' shoulders, a 10'-8" raised sidewalk with a 1'-3" vertical face custom barrier in each direction resulting in a total width of 95'-4". The existing profile is being raised approximately 1.5 feet to provide debris drift clearance above the 50-year design storm event. The estimated funding of the proposed project is \$14,314,000 of which \$12,314,000 would be from HUD. The project is located along West Price Boulevard, just southeast of Butler Park and northwest of the West Price Boulevard and Eagle Flight way cross streets, North Port, Florida.**
